Perennial Flowers

FROM SEED a fascinating and economical way to restock your flower borders. We carry a full line of fresh seeds of all the best perennial flowers and welcome your inquiries. Most perennial seed is slower to germinate than is the annual and requires a little more care. Results will justify the extra effort. Generous packets run from 10¢ to \$1.00.

HUSKY HARDY PLANTS

We are delighted to offer heavy clumps of perennial plants dug with generous amounts of good black soil from the famous GLASTONBURY GARDENS. The combination of rich Glastonbury soil and Mrs. Champlin's skill as a grower produces quality plants that cannot be equalled.

Contrary to popular opinion, most perennials may be moved (when dug as these are) at ANY season. We stock these plants as they come into bloom. Hence, you may know exactly what you are buying. With careful planting and copious watering, there will be no setback.

Visit us throughout the season to see these plants in their fine rich colors from our initial display of huge velvet pansies through painted daisies, handsome delphinium, Oriental

poppies, and showy phlox; to the rich autumn colors of the chrysanthemums which close the flowering season.

ROSES Dormant for planting in early April. Potted stock can be planted from May thru June.

EVER-BLOOMING TEA ROSES

Mme. Jules Bouche, immense white.
Condesa de Sastago, gold and copper.
Crimson Glory, new velvet red.
Etoile de Holland, large crimson.
Joanna Hill, cream yellow.
Margaret McCredy, Chinese red.
Radiance, fine hardy pink.
Roslyn, salmon orange.
Talisman, multi-color.
Edith Nellie Perkins, salmon-pink.

CLIMBING ROSES

Paul's Scarlet, best flame red.
Dr. Van Fleet, cream pink.
Emily Gray, yellow.
Silver Moon, white

BULBS Plant this spring for summer bloom.

Begonia (tuberous rooted) — none too well known, these flowers resemble large velvety camellias. Single or double in scarlet, salmon, rose, yellow, white.

Calla elliotana The golden calla, an effectively different garden flower. 50¢ each.

Dahlias All colors and types from 2.00 dozen up.

Gladiolus Named varieties from 50¢ doz. Garden Center mixed, 45¢ dz.

Ismene Peruvian Daffodil. Odd white flower with greenish overcast. Monster bulbs 35¢.

Lilium regale Large 35¢, 3.50 doz.

Montbretia mixed 60¢ doz.

Tuberose Double waxy white flowers, wonderful fragrance. 75¢ doz.

Zephyranthes Fairy Lilies, 60¢ dz.

INSECTICIDES — BAITS — REPELLENTS — FUNGICIDES

The threat of disease and insect attack is ever present and the one logical method of combat is through a regular spraying program. An all over WEEKLY dusting or spraying is a preventive measure that simplifies control. We stock all of the major controls as well as the dust and spray guns for applying them. A partial list follows:

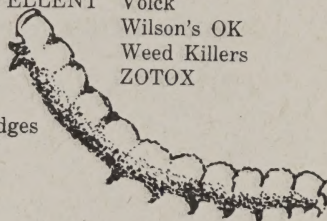

ANTI-BEETLE FORMULA

Antrol
Ant Bait
Ant Buttons
ARSENATE OF LEAD
Black Leaf 40
BORDEAUX MIXTURE
Bore Kill
Catalizer
Cedafloa

Volck
Wilson's OK
Weed Killers
ZOTOX

REMAINS VIRULENT AND EFFECTIVE IN THE SOIL FOR MANY YEARS. HARMLESS TO PLANT AND WARM BLOODED ANIMAL LIFE.

JAPIDEMIC is a biological product containing, per gram, not less than 100 million spores of the bacterium bacillus popilliae, which causes the milky disease of Japanese beetle grubs. The spores of this tiny organism remain alive in the soil for long periods of time to kill enormous numbers of Japanese beetle grubs as they move about in the soil feeding on the roots of grass in your lawn.

After a Japanese beetle grub has become infected with the milky disease the bacteria multiply rapidly in its body and soon cause its death. Each grub of the Japanese beetle that dies from the milky disease leaves 3 to 9 billion more of the living spores of the disease producing organisms in the soil thereby establishing another fatal focus of the disease to infect and kill succeeding generations of grubs of the Japanese beetle year after year. One pound will effectively treat 4,000 square feet. Its application is most simple. A tablespoonful of the material dropped on the turf surface at 5 foot intervals is sufficient.

FERTILIZERS and SOIL CONDITIONERS

We stock the following fertilizers, all at or below ceiling prices, in any quantities from 1 lb. to a ton or more. The Victory formula 5-10-5 is for use for food production only. All others, including a limited amount of VIGORO 4-12-4, are available for ornamental and lawn feeding as well.

BONE FLOUR
BONE MEAL
DRICONURE
BOVUNG
HYPONEX

HYTROUS
LIME (Agricultural)
MILORGANITE

Connecticut Sealed Grass Seed for Finest Lawns

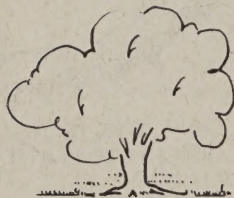

We carry Connecticut Sealed grass mixtures exclusively. They are approved by the Connecticut State Department of Agriculture for varieties of grasses, purity, and germination. Our mixtures exceed the standards by containing a larger percentage and a greater variety of high priced, fine leaved grasses.

For quick vigorous growth (new seeding) sow 1 lb. of grass seed to 200 square feet. For reseeding old lawns, 1 lb. to 400 sq. ft.

GOLD SEAL — for a superb velvety turf. Highest quality seed.
1 lb. .65 5 lb. 3.00 25 lb. 13.75 100 lb. 55.00

BLUE SEAL — best for general use — a dark green permanent lawn.
1 lb. .60 5 lb. 2.75 25 lb. 12.50 100 lb. 50.00

RED SEAL — a quick growing, moderately priced grass.
1 lb. .50 5 lb. 2.25 25 lb. 10.00 100 lb. 40.00

for Shady Places — BLUE SEAL SHADY

This grass is shade tolerant and will grow equally well on dry but sunny lawns — a tough grass.

1 lb. .65 5 lb. 2.95 25 lb. 13.50 100 lb. 54.00

We also carry the following straight grasses, clovers, and seed for forage and cover crops:

rye
soy bean
buckwheat
vetch

rape
oats
millet
timothy

white Dutch clover
Kentish wild clover
medium red clover
Chewing's fescue

Astoria bent
Kentucky blue
red top
domestic rye
